

CAP PROJECT

Information Sheet - page 1

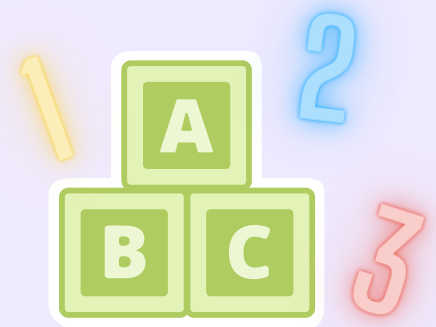

WHAT IS THE CAP PROJECT?

- The **CAP Project** is a study designed to help compare benefits from the Project PEAK to a group of typically developing preschoolers to see the effects of the program on a larger scale.
- Project PEAK is an early intervention program for caregivers with children ages 3-5 years old who are showing high levels of hyperactivity and/or inattention.
- By participating in this control group, you are helping other families all around the Lehigh Valley who are dealing with challenging child behaviors at home

WHAT IS INCLUDED IN THE STUDY?

You and your child will be asked to participate in assessments which include the following:

QUESTIONNAIRES

asking about your child's behavior and ADHD symptoms, your family, and your attitudes and behaviors toward parenting

OBSERVATIONS

of you interacting with your child at home through zoom (30 min)

ASSESSMENTS

for your child in person at Lehigh University (approx 1.5-2hrs) assessing early literacy, numeracy, and self regulation skills
